## KILLED IN THE BELTING OBJECTS TO HIS LECTURE

Martin Kandic Crushed While at Work in a Factory.

BERKELEY, May 2.—Martin Kandic, an employee of the California Ink Works in West Berkeley, was caught in the belting and shafting of the machinery this morning, and instantly killed. His head was crushed, his legs broken and his body mangled. The accident occurred while Kandic was attempting to make some slight repairs to the machinery.

Instead of stopping the machinery he tried to do his work while the flying belts were in motion all about him.

There he made his fatal error. His hand slipped and in a second his entire arm was caught in the mass of machinery and fellow employees who stood at some distance from the spot, watched with horror the tragedy enacted before their eyes.

They rushed to the place, but were too late to extricate young Kandic. His body was taken out of the belt and shafting so crushed as to be almost unrecognizable.

Kandic was 25 years old. He had no relatives in Berkeley. His home was at the Chicago hotel.

**"I'M FEELING FINE"**  
SAYS DR. HARPER

NEW YORK, May 2.—Dr. William E. Harper, of the University of Chicago, who came here Saturday to have an X-ray examination, is improving, according to Dr. Frank Billings.

"His general health continues to improve," said Dr. Billings, "and the diseased area continues to decrease."

Dr. Harper said:

"I certainly am feeling fine and I have gained in weight."

**FIVE DIVORCES TODAY**

CAUSED Neglect  
Desertion  
Intemperance

Five interlocutory decrees of divorce were granted by Judge Ellsworth this morning. John C. Thornton was granted a decree from Delta C. Thornton on the ground of desertion.

Isabelle Page was granted a decree from Jose Page on the ground of his desertion. They were married in San Francisco in 1897 and went to Spokane to live and there he was arrested and put in jail and when he got out he took his things and told his wife to get out as she would never see him again and he left her.

Because of the illness of her husband and his failure to work Jane Enloe was given a divorce from Enoch Enloe on the ground of his neglect. The testimony goes to show that he is a healthy, able-bodied man, but that for several years past he has done no work. He would sit around and read and smoke but when work was offered him he would not do it. He has three children the eldest of whom is twenty years of age, recently Enloe went home to his mother where he now is. Mrs. Enloe states that she was assisted all of these

years through her friends.

Sarah E. Stanchfield was given a divorce from John J. Stanchfield on the ground of desertion. He went into town one day and forgot to return. That was in 1898 and she has never seen or heard anything from his since. They were married in 1876 and according to the statement of Mrs. Stanchfield lived happily. He however was of a roaming disposition but they lived together until 1898. Their home then was in Colorado and he went to a town twenty-four miles from where they were living and where he had some business to attend to. She thought he would be back the next day but he never returned. She said she felt badly at first but after a while she didn't care.

For thirteen months Florence Lindeman testified Hugo Lindeman was drunk every day and finally she had to leave. He was a well borer but he drank up everything he earned and she had to support herself by dressmaking. He would go out in the morning sober and come home about 1 o'clock drunk. She was granted a divorce on the ground of his intemperance.

**THIS PROFESSOR IS TOO BASHFUL TO ATTEND SOCIETY'S CONVENTION.**

BERLIN, May 2.—Professor Roentgen is too shy to attend the international congress called to celebrate the tenth anniversary of the discovery of the Roentgen ray, and to collate the latest applications and developments. The congress opened here April 29, and the professor promised to be present but in spite of this, and although his name was on the program, he said he simply could not attend the sessions, as it would be impossible for him to face the crowd which had gathered to glorify his work.

Dr. Charles Lester Leonard, of Philadelphia, president of the American Roentgen Society, regards the transactions of the congress as being of high value to the profession because the results attained by many eminent experimenters had been gathered together and made available for the physicians of the world.

## New York Prosecutor Makes the Final Plea to the Jury.

NEW YORK, May 2.—Moved by the scene of yesterday when it became necessary for a court officer to request several women to leave the court room, Recorder Goff today directed that only those having a direct interest in the case be permitted to be present during the closing hours of the trial of Nan Patterson.

To carry out the Recorder's order the force of officers on duty in the Criminal Court building was greatly increased.

**CROWDS GATHER.**

Prospective spectators began to gather around the building early in the day.

Among them were many women, some of whom had followed the trial from the first.

Today, however, they were not permitted even to approach the outer door to the court room.

**ALL SEATS TAKEN.**

Only those able to prove their right to enter or who had friends among the court officials or attorneys were successful in getting into the court room.

Every seat was taken, however, when the proceedings were resumed.

**DOORS ARE LOCKED.**

As soon as the prisoner had been brought in Recorder Goff ordered that the doors of the court room be locked and that no one be permitted to enter or leave before the recess for luncheon.

In beginning his closing argument for the State, Assistant Dis-

trict Attorney Rand said:

**HARD EXPERIENCE.**

"This trial has been a hard experience for you, but I venture to say that it is one you will not look back to with regret.

"It would be ungrateful, too, if I did not also make my acknowledgment to the learned court and it would be ungenerous of me,

roundly as I was abused yesterday to your face, if I took offense at what the counsel on the other side in exigencies of a lost and rotten cause was compelled to say.

**ACCUSATIONS.**

"He accused me of every crime on the calendar and put me on trial at this bar for high crimes committed as a public officer.

"He told you that I thirsted for blood and had hounded Mrs.

Smith. You observed my examination of Mrs. Smith. Did I ask her an impolite question? Did I not treat her thoroughly as a lady? I would not make myself an issue here if I had not been injected as an issue in the case by the defendant's counsel.

**A LOST CAUSE.**

"It is not an issue at all. I might be all that Levy said, in the chagrin of a lost cause, and it would not affect this question. I want and must have your confidence.

"If I could sway the judgment of men and paint the fair face of truth with a sweet cosmetic, you would not listen to a word from me.

"If I could do these things

## YOUNG WOMAN ARRESTED FOR VIOLATING GAMBLING ORDINANCE.

Seven agents, alleged to have been guilty of having sold lottery tickets, were before Police Judge Samuels this morning to answer to the charge of violating the ordinance prohibiting gambling by chance or lottery.

Among those arrested was Miss E. Smith, a young woman who has not yet reached her twentieth year. She is presumably the heaviest offender, having four charges placed against her.

A. D. Billings, Manuel Dumas, John Perry, John Valladas, Chris Moss and Antone Mucca all had two charges placed against them. The cases, at the request of the various defendants, went over until May 10 for hearing.

The tickets were obtained by the police by means of search warrants. The policemen participating in the raid were Sill, Keefe, Crossman, Murray and McCready.

All of the persons charged pleaded not guilty, but have taken time to investigate whether it is advisable to forfeit in the cases or stand trial.

**The Unions Have Extended the Strike and We Will Simply Go One Better and Extend It Ourselves if Necessary. There is no Use Drifting Along on the Defensive.**—From Statement Made By Employer of Labor.

## UNIONS VS. EMPLOYERS

CHICAGO, May 2.—Some of the trucking companies of Chicago and their allied interests today took a stand in the strike situation unfavorable to the Employers' Teamming Company and the Chicago Employers' Association.

These striking companies, headed by the Arthur Dixon Transfer Company, intimated that they were tired of the strike, that they did not believe the teaming company was improving the situation, and that they were prepared to do business with Chicago's merchants with the best and most available labor they could secure.

The Chicago Employers' Association was advised that some of the big trucking companies were taking hauling contracts wherever they could secure them, and were using unnecessary labor with which to do work. In other words, the truckers were not complying with the requirement of the association that it be allowed to dictate who should or should not be employed.

### SEE NO STRIKE.

The companies prepared to act as if no strike were on, or at least as if they were not concerned in it.

A determination of the Gibbons Box Factory, the Thompson & Taylor Company, the Leslie Tea and Coffee interests, the Central Warehouse Company, the Walsh-Boyle Company, the Union Traction Company, the Heyworth building, the Morgan & Wright Company and several other important concerns to resume the delivery of freight with union labor, was taken by labor leaders to be a strong indication that Mr. Dixon, in common with many other truck owners, had determined to oppose the final purposes of the Employers' Teamming Company. So important was this development regarded by the executives of the teaming company and the Employers' Association that a meeting was called for this afternoon to consider action in the matter.

### BIG INVESTMENTS.

The work of the teaming company and the employers had been wholly along the lines of bringing every merchant handling freight, every teaming company doing trucking, and every railway and large corporation having street teaming, into the organization and to have all teaming affairs conducted through its officials.

Outside of the teams and trucks owned by individual merchants, the truck companies or firms of the city are estimated to have invested at the present time about \$25,000,000 in horses, barns, harnesses, real estate, etc.

It is understood that the Employers' Teamming Company proposes to take over the properties of the individual firms at a fair valuation, issue stock in payment of the same, and then attempt to guarantee an annual dividend on the stock. A number of the larger teaming concerns are said to be of the opinion that the teaming company has undertaken more than it can accomplish, and that the sooner peace is secured the better it will be for everybody concerned.

### THE EMPLOYERS.

CHICAGO, May 2.—The outcome of a move to bring the teamsters' conflict to a crisis was eagerly awaited today by the employers and unionists.

The employers' association had delivered an ultimatum to five leading team owners that they make delivery to the department stores, as they had been doing in the past.

The answer to the teaming contractors who prepared today to meet and take up the matter was anxiously looked forward to.

The team owners quit making deliveries to stores when the teamsters entered upon the strike.

The team owners were informed that they must either deliver freight to the boycotted stores or lose the business permanently.

To deliver goods as demanded would cause a spread of the strike to 5,000 more drivers.

The five teaming companies are: Arthur Dixon Transfer Company, Joseph Stockton Company, W. P. Rend Transportation Company, Christopher M. Lynch and Stephen Clark.

### FORCE FIGHT.

The employers seemed determined to force the fight, and an employer said:

"The unions have extended the strike and we will simply go one better and extend it ourselves if necessary. There is no use drifting along on the defensive."

Among the many detachments of incoming strike-breakers who arrived in Chicago today, the largest single body perhaps came from Detroit. They

# WOMAN WINS BIG PRIZE

Dr. Nettie Stevens of This State Gets Reward of \$1,500,000.

PHILADELPHIA, May 2.—Announcement was made today that the \$1,500,000 prize offered for the best laboratory research and investigation has been awarded to Dr. Nettie Maria Stevens of California, Ph. D., of Bryn Mawr College, by the association for maintaining the American woman's table at the Zoological Station at Naples and for promoting scientific research by women.

The association consists of representatives of all the Eastern colleges and universities conducting graduated scientific work for women.

Dr. Stevens is an assistant in experimental morphology at Bryn Mawr College and the holder of a Carnegie assistantship. Her prize-winning paper was on "The germ cells of aphys rosae and aphis Oenotherae," dealing with the Mendel law of heredity and sex examination.

## OBJECTS TO THE LECTURE.

(Continued From Page 1)

na. The title was, "Life of a French girl in a stylish Paris convent," and the lecturer under that name presented to the public a caricature of Catholic teaching, exactly such as have been presented in the French chamber by M. Combes and his followers, in justification of their policy of persecution.

The Monitor then quotes in part M. Dupouey's lecture, wherein the life of a so-called typical French girl, given the name of Simone was described and, according to the lecturer, fitted for a place in high society, among the aristocracy of France. Continuing the Monitor says:

### THE FACTS.

"How little of fact underlies these sneaking suggestions, every Catholic in California who knows anything of convent schools can tell. Several of the orders here are of French origin and follow the system of mental and moral training of French convent schools. It will hardly be believed that it presents religion, as a society enterprise, and indissolubly associated with aristocracy, anti-republicanism and monarchy."

### U. C. AND RELIGION.

"If this is not credible, one asks why a public instructor employed by our State University, is allowed to put it forward as fact. Professor Dupouey's language is very much the same as that of Gavazzi, Chauquy and Maria Monk. Does the University of Califor-

nia consider it non-sectarian? The university professes to exclude religion from its lectures on the plea that its mention in them would excite animosity among the various denominations that make up the population of California. Do the Regents think that the exclusion of Catholic teaching gives them the right to use public funds for supporting anti-Catholic teachers and lecturers? Are Catholics alone without rights in the university, as far as attacks on their religion and its orders are concerned? As a matter of justice the Regents seem bound to answer this question in regard to M. Dupouey's lecture."

### HIS ANSWER.

Professor Dupouey today issued an explanation of the lecture in question, replying as follows to the strictures upon him:

"The article in the Catholic weekly gave me a good free lesson in English. They say my lecture was sneaking. I did not know the word. I found it in the Standard dictionary. 'Sneaking—Characterized by meaning secrecy or unhandiness, cringing, crouching, fawning.' Pretty courteous, is it not? A good free announcement, too. I am quite sure the Regents did not know me, and did not care for me. Now they will be obliged to discover me. The Monitor, putting on a serious look, insists upon their discussing my case and sending me back to France. I fear, however, that most of the Regents do not read the Monitor.

### HIS ATTACK.

"Seriously, did I attack Catholicism in my lecture? I endeavored to describe a certain convent, which I know personally, the so-called Convent de l'Assumption, situated in Paris, 6 rue de Lutte, I did not say one word of the other convents, which I do not know. Did the Monitor after having read the account I gave know that it is a very typical convent? Did it recognize the whole Catholic system of education in that small isolated instance? Why does it feel the need of defending all the Catholic schools of Christendom and all the Catholic masters while I was speaking of just one school? Please who knows the Catholic schools the most—I or the Monitor?"

"And, moreover, who is the most religious man the one who says 'In a certain Catholic school they are not really Catholic, they misunderstand and misuse religion,' or the one who says 'That misunderstanding and misuse of religion is typical of our Catholic schools, and to attack this means to attack religion'?"

### PADEREWSKI IS NOW BETTER

NEW YORK, May 2—Ignace Paderewski, the pianist, arrived in this city today from Boston, and, accompanied by his doctor, went to the Hotel Manhattan. It was said at the hotel that Paderewski's condition was unchanged.

The attending physician today issued a statement that Paderewski was improving although quite nervous, and that he must take rest for some time.

## ESTATE FOR HER TWO SONS

### Will of the Late Jane Martin is Filed For Probate.

The will of the late Mrs. Jane Fooths Martin, widow of the late J. West Martin, who died a few days ago, gives practically all the estate of her late husband which descended to her at his death to her two sons, Thomas Davis Carnal and Shelby F. Martin, to share and share alike.

The estate is estimated to be worth over \$300,000.

The will first directs that all the debts of the decedent shall be paid. It then makes the following awards:

To Mrs. Helen Van Wyck of Oakland \$1000

To Miss Frank Van Wyck \$1000

To her nurse, Jane Graham, \$2000.

To her cook, Celina Goldberg, \$3000.

The rest and residue of the estate goes to Thomas Carnal and Shelby Martin.

The will was filed for probate today by attorney Reed, Nusbaumer and Black.

The Union Trust Company of San Francisco is made the executor of the will but this morning Thomas D. Carnal was granted special letters of administration on the estate by Judge Ogden for the purpose of representing the estate at a foreclosure sale to be held in Placer county on May 6th of a piece of property against which Mrs. Martin was given judgment for \$8,807.25 shortly before her death.

### NEEDS HIS TEETH IN PRISON

### WHY ACCUSED MAN SOUGHT TO HAVE CHARGE DISMISSED.

John Swas, who is alleged to have beaten W. T. Ward into insensibility in the Sixth street police locker while both were waiting to be taken to the City Prison on a charge of drunkenness, withdrew his plea of guilty to a charge of battery that morning in Police Judge Smith's court and entered a plea of not guilty.

Ward was in court to answer to a charge of drunkenness. His head was swathed in bandages. His ribs were broken and he had great difficulty in talking as he had no teeth.

"You Honor," said Ward, "I hope you will let me go this morning. I promise you I will never do it again. I cannot eat the prison food, for my teeth are gone. I think that I would be better off if I went to my sister's home."

Judge Smith was a little dubious. "Well, you can't be sent to prison for charges of vagrancy and drunkenness, I am going to give you a chance by letting you go. I will suspend judgment for forty days, and if you appear again in that length of time, we will send you to jail."

Swas over the victim of his rage company with his friends standing in the prison dock. Both men had been arrested for drunkenness and placed in the same cell. Just how the fight started between the two men is not known. The end of the fight was, however, very apparent.

### OFF FOR EUROPE.

NEW YORK, May 2.—President W. E. Corey, of the United States Steel Corporation sailed for Europe today on the Kron Prinz Wilhelm.

### HELD TO ANSWER.

John Taverna was held to answer this morning by Police Judge Samuels on a felony charge preferred by Antoine Varro. His bail was fixed at \$2,000.

## DAYLIGHT BURGLARS ARRESTED

### William Davenport and Companion in Custody After Fight.

PARIS, May 2.—After a hard fight three policemen today arrested and charged with burglary a man who said he was William D. Davenport, an employee of the United States Mint at San Francisco.

Davenport, who wore fashionable clothes, was captured with another man in the hallway of the Manufacturing building in Sixth avenue, which the police charge they were trying to break into.

Both men drew revolvers and threatened to shoot, but were knocked down before they could do so.

### PATTERSON TRIAL

(Continued From Page 1) there would be but one place for me and that would be at this woman's side, a fit object of contempt."

Continuing, Mr. Rand said:

### BASED ON LIES.

"Mr. Levy has accused me of suppressing evidence and other things, but are those charges true?

I wonder if you are such men as to be swayed from your duty by such a shabby outworn device as trying to attack the prosecutor. Mr. Levy did not make a point yesterday that was not based on a lie. He told you that Young wanted not a severance but a continuance of the disgraceful alliance. Assuming that his logic is sound regarding the Coggins letter, where are the facts?

### AS TO HOUNDING.

"Now, with regard to Mrs. Smith's testimony and my hounding her, Mr. Levy said I tried to make you believe that these pawn tickets bore date of June 3. I did not say that the tickets represented articles pawned on June 3, because I knew they were dated October. I did ask Mrs. Smith if they were renewal tickets for articles pawned on June 3 and her answer was a lie.

"She also lied when she said she could not remember which of the bracelets given her by her mother was pawned in Stern's by her husband, J. Morgan Smith.

"I knew that if I put Levy in a position he would help me get the pawn tickets in evidence. In a moment of forgetfulness he did the trick. In a moment of forgetfulness he put before you, gentlemen, a piece of truth.

"Then he says I have concealed material evidence. That would be a wrong thing for me to do in a murder case, when a woman's life was at stake. I wonder if when he was making that charge of concealing evidence his thoughts were wandering along the Canadian border to Toronto. And I wonder if, when he was charging unfair methods if he was thinking of the articles which kept J. Morgan Smith and his wife away from the first trial.

### TO CONVINCE ALL.

"Since when has Levy the right to tell me to be a gentleman? He swore to me to bring the blush to Mrs. Young's honest face to answer his questions. Have I tried to drag this defendant through the mire and, covering her with stench, asked you to convict? Have I not treated her with the utmost consideration? But Levy well knew that he had to win but one juror to his aid, while I must convince you all."

Thirty non-union teamsters were attacked today by a crowd of strike sympathizers at Jackson boulevard and Halsted street. All kinds of missiles were thrown. Non-union teamsters, armed with stout hickory clubs, attempted to fight the mob, but were being overpowered when the police arrived.

William Wrather, a white guard, was seriously injured. The police, clubbing right and left, rushed the crowd off the street. Five persons were arrested. Only ten of the non-union teamsters could be found, the others having fled.

## LOUBET RECEIVES M'CORMICK

### Ambassador From United States Welcomed By France.

PARIS, May 2.—President Loubet received Ambassador McCormick at the Elysee Palace this afternoon. Mr. McCormick was accompanied by the entire staff of the American embassy, including the military and naval attaches, in full uniform. The party was driven from the residence of Mr. McCormick on the Quai de Billin state carriages, with an escort of cavalry.

At the Elysee Palace military honors were rendered by a battalion of infantry with a band and their regimental standard. M. Loubet, who was accompanied by Foreign Minister Delcasse, received the American ambassador in the hall of the ambassadors.

After a cordial exchange of greetings, Mr. McCormick presented his credentials and made a brief speech, setting forth the long existing cordiality between France and the United States. The President responded in a similar vein, expressing the earnest hope that the Ambassador's service would further strengthen the friendly ties between the two countries.

M. Loubet had previously received the retiring American ambassador, General Porter, who presented his letters of recall.

in to the nearest police station. Seven policemen under Inspector Patric J. Lavin hurried to the scene and dispersed the crowd. Carter was arrested. Schultz will recover.

Contrary to announcement, no order was issued today for the arming of the non-union men with rifles. Superintendent Reed of the Employers' Teamming Company said he did not know when the order would be issued, if at all. He denied having said that such a movement would be made.

### MAKES A DENIAL.

Secretary W. F. Job, of the Employers' Association, made a similar denial. One of the obstacles to the use of rifles is the action taken by the City Council last night directing the enforcement of statutes prohibiting unauthorized persons carrying rifles in the streets. There is also a law against shooting within the city limits, and against brandishing a weapon in a threatening manner.

A hundred colored men imported as strike-breakers by the Employers' Teamming Company struck today. The negroes complained that they could not protect themselves with wooden sticks or canes which are being furnished by the company.

The colored men declared that the canes, though stout, could not give protection against bricks, stones or similar missiles. The men wanted revolvers. Their request was refused and they quit work.

### DISREGARD PROMISE.

A promise, alleged to have been given to Secretary Probst, of the Commission Team Owners' Association, by President Shea, of the teamsters, that the commission men would be allowed to remove perishable produce lying in express cars in the Illinois Central freight house, was not respected to-day. Pickets stationed at the freight houses turned back the commission men.

# SOLDIERS ATTACK PEOPLE

## BOMBS FOR THE COSSACKS

Workmen at Warsaw Are Pursued and Beaten.

ST. PETERSBURG, May 2.—Bad as was the rioting at Warsaw, Lodz and other places in Poland yesterday and venomous hostility displayed toward the police and Russian authorities, the uprising was far less formidable and the results less bloody than anticipated. The authorities here have given due warning of their intention to permit no demonstrations and the troops quelled the disturbance ruthlessly.

### FEAR TROUBLE.

All reports, however, indicate that the demonstrators were comparatively tame; numbers in the vast bulk of the population fearing trouble remained indoors. Where trouble occurred the crowds were armed with bombs and revolvers. In Warsaw a red flag procession was dispersed by two volleys. Cossacks and Uhlans then charged and cut down the people in the streets, drove them into court-yards and beat them with sabres and whips in cruel fashion peculiar to these wild horsemen of the Steppes. About a hundred persons were killed or seriously wounded, according to the reports, women and even children sharing the fate of the men.

### ATTACK POLICE.

At Lodz workmen attacked the police with bombs and were charged by dragoons and Uhlans who cut off the heads of the police, wounding many of them. A free fight ensued during which weapons were taken from the police, who were exchanged and stones were thrown. A dragon, a woman and a man were killed inside the church. A squadron of cavalry was summoned and dispersed the crowds. The church was closed for reconsecration.

There was an explosion in the police station of Minsk yesterday evening following which a crowd fired on a detachment of Cossacks. The latter replied and order was soon restored. The strikers at Lodz now number 50,000.

## KISSES ALL HIS SOLDIERS

COMMANDER-IN-CHIEF OF RUSSIAN ARMY PAYS TOUCHING TRIBUTE.

GUNSHU PASS, Manchuria, May 2.—A touching incident occurred during the Easter celebration here. After the morning services among the troops in the region around the headquarters were drawn up in line before General Linevitch's tent and the commander-in-chief came out, greeted the troops, and passed down the line, saluting each and every soldier with a kiss. All the men were much moved and many of them wept. The incident served to increase their boundless worship of the old leader.

General Linevitch continues energetically the reorganization of the various departments of the armies.

Staff Captain Shubersky, who has reported here after making reconnoissance on the Mongolian frontier, reports that thousands of Chinese bandits, under Japanese leaders, are beyond the border.

## RAID IS MADE ON HOTEL

OFFICER BELIEVES THAT LIQUOR IS ILLEGALLY SOLD IN BERKELEY.

BERKELEY, May 2.—Suspecting that liquor was being sold illegally at the Acheson Hotel on University and Shattuck avenues, Marshal Vollmer last night directed that a raid be made upon the place. Deputy Jameson was detailed to do the work. He descended upon the hotel about midnight last night, but evidently the people in the place had been warned of his coming, for no sooner had he effected an entrance than the door of the room in which he stood was locked upon him.

He heard the sound of hurrying feet in the room next to him and was convinced that there he would find the lawbreakers he sought if he could only get in.

He hammered and pounded at the door and finally succeeded in breaking it down.

By that time his prey had fled. He found the room empty but there were signs that liquor had been in evidence shortly before. No arrests were made.

### EXAMINATION SET.

Charles Edwards, who is alleged to have such a consuming thirst as to have turned burglar and entered the saloon of J. A. Clancy, 321 Broadway, was held to be wanted by the police in connection with the shooting. The details of the affair are being kept secret as much as possible by those connected.

### WANTED FOR SHOOTING.

SANTA BARBARA, May 2.—A woman of ill repute has been shot twice in the side and in the cheek in a room at 820 Anacapa street, and is dying at the Cottage Hospital. A man named Clifford, 111 State street, who was with her, is said to be wanted by the police in connection with the shooting. The details of the affair are being kept secret as much as possible by those connected.

# CANNOT INDICT AUDITOR

Workmen Turn on the Grand Jury Makes Reply to Charges Against Breed.

The following letter has been received by Mrs. Isabella Martin:

"OAKLAND, Calif., April 19, 1905.

"Mrs. Isabella Martin, Oakland, Calif.—Dear Madam: Referring to your charge of certain interest charges by the City Auditor, I would like to advise you that the District Attorney of this county thinks your contention is correct, and that said interest charges have been illegally computed and collected. We find that the City Auditor was at that time acting under the advice of the City Attorney of the said city of Oakland as to the construction of the legal method provided for such computation, and, therefore, no offense having been committed, the jury could take no action thereof further than to suggest that you apply to the City Council of said city of Oakland to have the amounts illegally collected refunded to you. Yours truly,

"H. B. BELDEN, Secretary."

Mrs. Martin makes the following statement:

"Last evening I appeared before the Council and presented them with my claim, and Mr. Fitzgerald promised to put the claim through as soon as possible. The Oakland charter provides that, among other duties that City Auditor Breed is charged with, are the levy and collection of taxes and sale of property of the city. It is also his duty to compute, collect and receive interest on the checks sent to the city, thereby avoiding the inconvenience of going to the post office. I think they would rather have the money than a farm, for there are few, indeed who would know what to do with a farm if they had one. Railroaders of the age of 60 or 70 years, who have worked all their lives in the shops, would spend the rest of their lives in unprofitable experiments if placed upon farms.

"The system of the Southern Pacific allows a pensioner to draw his pension and at the same time engage in any other business he may choose. This is much more satisfactory than to place him on a piece of land and force him to cultivate the soil."

There was a fear among the Southern Pacific employees that the company might follow the example of the Rock Island, but there seems to be little likelihood of that being done.

### EXCURSION TRAINS.

There is unusual activity in the car repairing shops preparatory to inaugurating the summer excursions. It is rumored that the Southern Pacific will follow the plans of the Northwestern.

The passenger department of the North-

western Railroad has decided to run four personally conducted excursions to western and northwestern points of interest. Excursions will be run during the summer season and will be on first-class business.

Hitherto all Western roads have confined their personally conducted excursions to business which moves in tourist cars. Other personally conducted excursion business has been left to tourist agencies. If the undertaking proves a success the Northwestern will gradually take over most of this business.

### CIRCULATE PETITION.

The petition of railroad employees asking the Oakland Transit Consolidated to change its transfer system has been drawn and will now be circulated among the men at the yards.

Many of the men live in East Oakland and they are put to considerable inconvenience because the East Eleventh street car will not go to those on West Eighth street and vice versa. In going to work the men are often delayed until they are late at the yards, and the tired mechanics sometimes are compelled to wait at Eighth and Washington streets for ten or fifteen minutes when returning home.

They say that the cars stop at Eighth and Webster streets to wait for the narrow-gauge men, that they could just as well speed that time waiting at Washington street for those who have come from West Oakland.

### GENERAL NOTES.

The steamer Berkeley is being inspected at the broad-gauge mole by Government Inspectors Balles and Bulger. She will be out of commission for about eight days. She went out of commission last evening.

The ferry steamer El Capitan, plying between Vallejo and Vallejo Junction, will go on the marine ways today for a thorough overhauling. The Bay City will take her place.

Edward Robert Yates of the machine shop today inspected the rollers of the marine ways that were damaged in launching the giant ferry steamer Sonoma. He says the rollers are badly bent, but that they can easily be repaired. Divers were at work taking out the rollers yesterday and today.

The social and dance given by the Railway Men's Social and Athletic Club at Alcatraz Hall Saturday night was a pronounced success. The proceeds go to the gymnasium fund.

# MURDER CASE WITNESS IS HYSTERICAL.

Screams of Insane Man Causes Woman to Shriek in Court.

Frightened at the screams of an insane colored man who was being taken into one of the courts Mrs. Amelia Kruger, who was testifying in the trial of Lena Koehn, shrieked from her stand "My husband! they are killing my husband!" and Judge Green was forced to take an adjournment in order to allow the witness to compose herself.

She is in a nervous condition and the fact that her testimony is against Mrs. Koehn has made her afraid that the Paganette family would visit the vengeance of the Mafia upon her or her husband. She was being cross-examined by Attorney A. L. Frick, and had been under fire for some time when the scream of the man outside came through the courtroom and she sprang from her chair crying for her husband whom she believed was being killed.

Attempt was made to quiet her but it was plainly apparent that her nerves were in a highly wrought up condition and it was only after she had seen her husband, alive and well that she would believe that it was not her husband's cry that she had heard.

She was a neighbor of the Koehn's and lived across the street from them at 789 Grove street and was one of the first persons to enter the Koehn house after the tragedy. She testified this morning that Mrs. Koehn had talked to her on several occasions of trouble

she had with her husband. These conversations took place in her kitchen, and in this connection she said: "The Thursday before she shot her husband she was talking to me and said: I do not believe in divorce. If my husband goes he will have to leave first. If he deserts me I will kill him, and myself and his mother, we will all go together and I will make a good job of it."

After the shooting Mrs. Kruger went

to the Koehn home and she asked

Mrs. Koehn what was the matter with

her husband and she said "He shot

himself." Afterwards she said, "No, I shot him; he accused me wrongfully, and I had to kill him in self defense, as he was going to kill me."

Mrs. Kruger also testified that when

she first went into the room where

Koehn lay the bed was nicely made,

but that when she went in a second

time it was all torn to pieces, and the

clothing scattered about the room.

She also stated that she took hold

of Koehn's wrist to feel his pulse to see

if something could not be done for him,

but Mrs. Koehn's brother said "It's

too late, you can't do anything for him

now."

It was during her examination upon

these points that the screams were

heard which frightened her so and

caused her to cry out. An adjournment was then taken until this afternoon.

She had given ball, but she has not yet

taken advantage of the permission.

The motion was presented to the court

and was taken under advisement.

In the heart of the fashionable shopping district two trucks, driven by non-union colored teamsters and guarded by 40 negroes armed with stout canes, had a stormy day.

At Randolph street and Wabash avenue a crowd of nearly 1,000 persons surrounded the wagons. Tin cans, pieces of coal and other missiles were thrown at the colored men, who meantime used their clubs freely. A number of women who had been shopping became mixed in the crowd. The negroes drove the mob back and the women fled into the big retail establishments in the vicinity.

**TO IMPROVE HONOLULU HARBOR.**

## FOUND DEAD IN CHAIR

**Life Lost in a Fire in San Francisco This Morning.**

SAN FRANCISCO, May 2.—Sitting upright in a chair with his coat and vest thrown to one side and his feet upon an elevation, Colvin McNeal, a carpenter, was found dead by Battalion Chief M. O'Brien of the fire department today while the fire fighters were trying to get under control a blaze that nearly destroyed McNeal's home on O'Farrell street.

When the fire apparatus assembled Fireman Michael Wright discovered that in the lower story of the burning house McNeal was surrounded by flames. In the meantime McNeal's wife and child, who slept on the floor above, had been aroused and safely removed, together with several persons who roomed in the place.

Wright broke into the house and in attempting to reach McNeal, was overcome by smoke and had to be carried out. Other firemen recovered the dead body.

## CIER WINES LOST IN BIG FIRE

**NARROW ESCAPE OF ALAMEDA COUNTY EXHIBIT FROM LOSS IN ARIZONA BLAZE.**

The Alameda County exhibit intended for the Lewis and Clark Exposition had it been shipped the day before yesterday on its way to Portland, as had been the purpose of the Alameda County Fair Commissioners, would have been completely destroyed by the fire which yesterday reduced to ashes the Arizona warehouse and its contents, near Sixth street, and extending from King to Berry streets, San Francisco.

Such a loss would have been severely felt by this county, because it would now be impossible to replace the exhibit before the opening of the exposition.

The commissioners having charge of the Alameda county exhibit were ordered to send their stock to the warehouse in question, and have it there await shipment to Portland. There was a hitch in the proceedings and the order was not complied with.

To this circumstance it is to be attributed the fact that Alameda county will be represented in the exposition up north.

Had the display been destroyed there would have been a loss of several thousand dollars sustained, because, no one, as a rule, thinks of insuring such material.

Theo. Gier, who is one of the Fair Commissioners of Alameda county, did not fare so well with the wine exhibit of his firm, which he intended for the exposition in question.

Several days ago he forwarded to the Arizona warehouse about twenty-five cases of his best wines, from which place the vintage was to be forwarded to Portland. These wines were in the warehouse at the time of its destruction, and on them the flames feasted with bacchanalian delight, because there was not a single crystalline drop of them to be found after the fire had done its work. The wines were not insured and Mr. Gier is now hastily duplicating the exhibit.

## STOLE FROM A BANK

SAN FRANCISCO March 2.—Information has reached the Grand jury that E. J. Smith, the abounding Tax Collector was a defaulter not alone to the city but to a number of private concerns as well. That he had been a public official prominently in this connection, and it is stated that when he fled from the city he was short in his accounts with that institution. This he is said to have obtained in much the same way that he defected the Treasurer's office—by securing full the strength of his personal responsibility, which was balanced at the time to be sound.

## BURNED IN HIS HOME

**Old Resident of Vallejo Meets a Tragic End.**

VALLEJO, May 2.—James Holmes, an old and well known resident of Vallejo, was burned to death at his home in this city late last night, though every effort was made to save him. A passer-by discovered fire in the house, and endeavoring in vain to break in and arouse the inmates quickly gave the alarm. When the fire department reached the scene the house was wrapped in flames. It was known that Holmes had been seen to enter the house earlier in the evening, and Police Officer Jack Scully rushed into the burning building in an effort to rescue the unfortunate man. Flames and smoke drove the policeman back but a second attempt was more successful. He found the charred body of Holmes lying beside his bed. It is supposed that Holmes fell asleep, leaving a lamp burning on the table by his bedside, and that it was upset. Holmes is survived by a son, William Holmes, employed at Napa Junction.

## CHERRY CROP IS DAMAGED

SAN FRANCISCO, May 2.—"The storm last night and this morning was widespread and covers nearly all of California," said Professor McAdie today. "The heaviest rain has been right around San Francisco, more than one inch of rain falling in the past twelve hours. The conditions are favorable now for a few light follow-up showers, followed by fair weather."

"It is snowing in the mountains and the winds are changing around to the north. We are still blowing from the south at Los Angeles, Santa Barbara and San Diego."

### DAMAGE TO CHERRIES.

"With regard to the crops there has probably been some damage to the cherries by falling water, and there may have been some damage done to the small fruits. There will naturally be some interference with the picking and farm work."

"The rains are now down to San Diego, and it will probably rain there today. These May rains are needed, and when we have a precipitation the yields are good, but not a heavy rain as this we have not had for a long time as this before during May."

Reports from the interior indicate that the cherry crop has been damaged to some extent, but the staple crops are considerably benefited."

## MORRISSES GET A GRILLING

**Central Bank Officers Tell Grand Jury About Their Campaign of Slander.**

The attempt to use the Grand Jury to harass the directors and officers of the Central Bank came to a disastrous breakdown today.

So much has been set afloat by H. C. and H. S. Morris for publication in the newspapers relative to what the Grand Jury purposed doing in regard to the Central Bank that this morning Vice President and Manager W. G. Palmanter and Cashier Anson S. Blake requested a hearing at the hands of the Grand Jury.

Directors John L. Howard and President Thomas Crellin and Mrs. Fredrika Blume, a stockowner in the bank whose name had been freely used by the Morrises in the circulation of their stories, testified in advance of Messers Palmanter and Blake. All strongly censured the course of the Morrises. Mrs. Blume emphatically endorsed the acts of the bank's officers, flatly contradicting the Morrises. At the close of the hearing, the Morris' charges stood revealed as calumnious inventions set afloat in a spirit of malice to further personal ends.

The Central Bank ranks as one of the soundest and best managed banking institutions on the Pacific coast, and was so considered by the two Morrises till they disagreed with the other directors and made themselves so obnoxious that the other directors and stockholders decided that they did not want them connected with the bank any longer. Since that time the conduct of the Morrises has been exceedingly offensive to public sentiment, which emphatically disapproves of the attempt to use the Grand Jury to serve private ends.

## PRETTY FEATURES OF FLORAL FETE

There will be a meeting in the Board of Trade rooms this evening of the executive committee of the floral fete, which is to be held in this city May 17. This meeting will also be attended by the advisory committee of the movement, which compels one member from every charitable organization in the city. Thus far there is a promise of seventy-five decorated carriages for the parade, and thus number will undoubtedly be greatly increased before the day for the display.

In the line there will be a number of novelties. The Federated Trades is preparing a special feature and the Reliance Club will be represented by a troop of cavalry with floral saddle blankets and trappings twined with flowers.

## WHY THE BANKER FAILED

MILWAUKEE, May 2.—The first authentic statement in relation to the cause of the downfall of Frank Bigelow, the defaulting bank president, was made to an intimate friend of the former banker. In brief, Bigelow's friend attributes the disaster to over-confidence in his business ability. Bigelow, his wife and states, denies emphatically that he lost the money in wheat deals.

## SORRY HE HELPED A STRANGER

SAN FRANCISCO, May 2.—E. P. The man had slept but woke a sadder and wiser man. His strange friend was missing and so was Schreiber's purse containing \$5. The robust man reported his trouble at the Hotel Polk, San Fran, and says the stranger had given the name of John Van Sneed and averred that he worked for Dake & Baker.

## S. P. BONDS

NEW YORK, May 2.—The Southern Pacific Company today notified holders of its 4% per cent gold bonds that it would redeem these bonds at par and accrued interest on June 1, and that it had created an issue of \$30,000,000 of 4% per cent gold bonds redeemable at par and interest on June 1, or any day thereafter. Holders of the called bonds are offered the option of exchanging them for the new bonds on even terms plus \$42.50 cash for each \$1000 face value of the bonds called for redemption and with the June and December coupons attached.

## FUND PROVIDED FOR NORWAY

## MINISTER IS DEFENDED BY HIS FLOCK.

**Rumor That Rev. Courtwright Was Addicted to Use of Drugs is Denied.**

In contradiction to statements made by Alice B. Courtwright in her examination on a charge of insanity and whose trial is now taking place before Judge Kelvin and a jury, that her father was once a habit of using drugs, Rev. C. W. Courtwright now has in his possession certain documents which he will endeavor to have used in evidence in the case in refutation of anything that may have been said in regard to the matter.

Yesterday morning at the calling of the case Mrs. Courtwright pleaded illness and her attorney, Herman Walker, asked for a continuance on the part of the court that she might send for an attorney where Rev. Courtwright was ordered to appear in order to get the depositions of two men mentioned to him by an attorney whom he had written asking for any information in regard to any trouble Rev. Courtwright had while there.

Judge Melvin denied the request as Walker was no able to show that he could get anything but hearsay testimony at best. One of these men is William Fortmiller who signs the following:

ALBANY Ore. April 17 1905  
Inasmuch as the Rev. C. W. Courtwright Ph. D. has served the First Presbyterian Church of Albany, Ore. for about nine months and because of a lack of harmony between pastor and people it seemed wise to sever the relations existing and

whereas certain groundless and false rumors and evil stories have been encouraged by Dr. Courtwright as a preacher and a man and whereas we feel that it is absolutely essential to Dr. Courtwright's success as a man and minister that he be placed in a proper position before the world therefore we desire herein to say

That we believe the reports referred to above to be absolutely false and baseless and that no credible evidence to the contrary can be produced and further

That though men may differ as to sermons it is our deliberate judgment that some of the ablest and most impressive sermons ever delivered in our church were so delivered by Dr. Courtwright and that while we grieve that circumstances seemed absolutely inexorable in the case of the Albany field we believe that the field certainly must exist in which Dr. Courtwright could exercise the powers and functions belonging to a minister very appropriately to all concerned.

And we cannot bring ourselves to a close without commending to the love and confidence of all Mrs. Courtwright as well as the family, so especially are they qualified for church work and such efficient assistance have they

*Scrofula*

It is commonly inherited.

Few are entirely free from it.

Pale weak puny children are often seen with it in nine cases out of ten and many adults suffer from it.

Common indications are bunches in the neck, abscesses, cutaneous eruptions, inflamed eyelids, sore ears, rickets, catarrh, wasting and general debility.

This did not in itself meet the views of the Elmhurst men, but they stated that they were willing that there should be two uppers one to catch the balls and the other the bases. E. G. Birn of Oakland was named as their representative.

Visitors, however, refused to play if they did not have their umbrella along. The Indians would not stand for this, the spectators had a chance to observe what happens when an irresistible projectile meets an immovable barrier. There was nothing

Following is also a document signed by the ministers in that city who had the following to say in regard to Rev. Courtwright:

ALBANY Ore. April 29 1905  
We the unengaged pastors below wish to express our appreciation of the labors of the Rev. C. W. Courtwright Ph. D. who for a time was pastor of the First Presbyterian Church of Albany, N. Y. Bro. Courtwright has given himself an able preacher and a consistent Christian man. We shall be equally pleased to remember his labors among us. We feel that the cause of the Lord Jesus has been greatly strengthened through his efforts while among us. His most earnest, simple, and winsome himself have made many warm friends during his stay in Albany.

Methodist Episcopal—J. T. Abbott  
Baptist—C. H. McKee  
Congregational—D. V. Polling  
Cumberland Presbyterian—W. M. McGehee

Evangelical Association—C. B. Stay

These rumors referred to in the first of these papers was the fact that Rev. Courtwright was addicted to the use of drugs. And these charges were repeated by his daughter at two different examinations held since. How they ever started Rev. Courtwright to believe he is unable to understand except that he is troubled with malaria and at times has taken prescriptions of quinine and antimalaria.

The trial of the case was resumed this morning and it is believed will be finished this evening. Alice Courtwright and her attorney, Dr. Courtwright, are being cross examined by Donald J. Distillier, Attorney T. W. Harris. She is inclined to talk a great deal and if she were not stopped would be questionable how long she would make an answer to any question.

She was taken over the causes this morning which led to her leaving her home and later the home of her brother in law, Thomas Glenn and examined at the office of the district attorney against Glenn. She was asked if she had not told Mrs. Glenn in the presence of Steward Harry Borchert that she had the said nurse instead of herself. She said she considered a man a good nurse if he had had some knowledge of nursing.

Shortly after 11 o'clock she said that she was not feeling well and her attorney requested a continuance until this afternoon which was granted.

SECRETARY OF HAWAII HERE

SAN FRANCISCO May 2—A. L. C. Atkinson Secretary of the Territory of Hawaii arrived here today on the steamer Coptic. He will at once proceed to Washington and New York to take up the matter of refunding the Hawaiian loan under the provisions of an act just passed by the Legislature. It is proposed to return about \$700,000.

CHINESE LOVE SONG  
She says "The cock crows—dark  
H. says "No sun, no dark"

She says "The dawn grows bright  
He says "Oh no my light  
She says "Stand up and say,  
Gets not the heaven gray?"

He says "The morning star  
Climb the horizon's bar  
She says "Then quick depart,  
Alas you now must start

But give the cock a blow  
Who did begin our woe?

BE YE IN LOVE WITH APRIL-TIDE?  
I am in love with April tide?  
For now its sun and now its shower  
And now the frost and now its flower  
And now the Laura laughing eyed  
And now its Laura sh'd

1. Doubtful days O slower slide!  
Still smile and frown O sky  
Some beauty unforeseen I trace  
Even change Laura's face  
And now in love with April tide  
I faith in love am I

ESOPUS—A WINTRY RONDEAU.  
Esopus rests beneath the snow  
The lawn and paths are snuggled low  
The porch fair summer's rendezvous  
In quilt of white is sleeping too  
And sparrows pass on tip of toe

No hackmen joggle to and fro  
The trains upon the bank below  
Don't stop—that last one simply  
new! Esopus rests

BEST OF ALL

In my youth I longed to hear  
Trumpet measures breathing clear  
To the theme my heart should read  
In my youth I longed to see  
Shakespeare's fair one for me—  
Laurel boughs float down my mead

In my mid age caught I care  
For the petticoat's coquetry  
Nestling wings its throat may stop  
In my mid age I require  
Peace and shelter household fire  
Earth leaves the forests drop

In my winter shall I still  
Seek abroad with fretful will  
Wanting all that I have not?  
Let me swift that chance forestall  
Earth's gift to me for all  
Else it were not in my lot

NOBODY DOES IT NOW

I used to wear a thin straw hat  
And never thought of all things like that,

But I don't do it now

I used to go without a vest

And count the breezes from the west  
But I don't do it now

I used to go without my coat  
And wear no collar at my throat,

On open air'd road ride

And leave my window open wide  
And let the tea I poured inside

But I don't do it now

I used to fume and stew and fret  
But I don't do it now

I used to want the whips to blow  
And loved to see the sunlight go

And I used to sit in ice and snow  
But I don't do it now

SWINDLED AGAIN

I never yet went to the city

That I didn't get swindled some way

Then felons down there think it's a

Ter put up a job on a jay

Last Wen'dy they held a convention

On some kind an crowded

They'll know how it wuz I mention

I couldn't git no room at all

At the tavern The bed at I slept in

We couldn't call nigh a bed

Twas ez hard ez a rock an was kep in

The barroom Next mornin' I said

To the clerk What's the charges?

Says he since it wasn't alone

In a room ter yerself w'y that bunk!

Not set yer back only one bone

A dollar? says I Gee moon-neener!

W. I. step on the pool table boss!

Well ez arter her still's old gezer

Six cents evry hour's what that costs!

## TWO ARE KILLED; FIVE HURT

CANADIAN PACIFIC TRAINS COLLIDE; BOTH ARE DERAILED.

HONOLULU T. H. April 26 via San Francisco May 2—Governor Carter has appointed a Board of Immigration Commissioners as provided for by an act of the present Legislature to undertake a solution of the labor problem here. The act is a result of a suggestion made by United States Commissioner General Garrison who is said to have expressed the opinion that Hawaii could get white labor if proper steps were taken. The Governor's appointees are A. L. Atkinson Secretary of the Territory, James J. Cooke, J. H. Craig and E. D. Tenney.

The new law is an effort to provide a means of securing a reliable labor supply for the plantations. The shutting off of the Chinese and reduction in arrivals of Japanese and others as well as the departures of Japanese have made the labor supply question one to which the planters have given considerable attention. The board will organize after the return of Mr. Atkinson from Washington to whom he left today.

## RED FEATHER SCORES HIT AT MACDONOUGH

### Grace Van Studdiford Carries Off Honors--Prima Donna Was in Excellent Voice.

The unexpected rain of yesterday kept many people from attending "The Red Feather" at the Macdonough Theatre last night. Despite the downpour, however, there was a goodly attendance and not a few of those present, belonged to the class who studiously avoid everything save what is known to be the best in the world of the stage.

"The Red Feather" styled a comic opera comes, recommended as De Kooper's latest work, a commendation of some merit, to those who can recall "Maid Marian" and "Robin Hood," by the same composer.

It comes also with the prestige of a

successful run in the East and with practically the same company which sang its way into the hearts of those who appreciate light music, and at the head of the singers, is Miss Grace Van Studdiford, who appears in the title role.

The attention of the auditors, last night was, of course centered in the young woman who essayed that role. There was reason for this, because there was no time after Miss Studdiford made her entree that she did not dominate the stage. When on the boards she was instinct with life and melody. When off the stage her voice, penetrating, fresh and ringing, seemed to fill the ear. This, however, is not said in derogation of the other performers, but of one who was not admiringly admitted to his or her part, when viewed from a histrionic and musical standpoint.

This is commendation which may not always be bestowed upon the funny men of such production, for the reason that they are usually grotesque but voiceless.

In a number of ways Miss Grace Van Studdiford is unique on the comic opera stage. Heroines, in such a character as she essayed last night, as a rule, display a mechanical and bravado, which too often lacks the genuine ring of nature. This was not the case with Miss Van Studdiford. From the moment she appeared on the stage until the final ensemble she was animation and energy personified.

She keyed up performers who became careless, the moment a stage "wing" hides them from the managerial eye and led and drove them into activity which gave to every scene a dash and vigor which was gratifying in the extreme. In the concerted work her sweet, pure notes rang with ease and satisfied every ear less than they did in the more romantic solos and duets where less vocal effort was required. She was as liberal in ba-

## BERNARD'S TRIUMPH AT YE LIBERTY. Scores a Success As a Star in First Production of "The Financier."

"Have a cigar. Go on, take another, the label? Never mind the label, it's 'The Financier,' my picture on each and every box." So spoke Barney Bernard in the first act of "The Financier" at the initial production of H. D. Cottrell's new comedy-drama, given last evening at Ye Liberty Playhouse. One cannot judge by the first performance whether or not "The Financier" will make Barney Bernard famous or "frenzied," or result in "clergies being named" from his play as intimates being written in such a manner as to give Bernard full sway of his ability as a Hebrew impersonator. While Bernard is enabled to keep up an almost continual rapid fire of race sayings and act-out peculiarities, still there are places where extreme pathos can be shown. And, despite the fact that those who have seen Bernard before have a tendency to associate him with the continual comedy of Fischer when he does his serious portion of his character, he causes us to forget all else but the fact that he is portraying one side of the Jew's character seldom seen on the stage, and that never is comedy.

In "The Financier" Barney Bernard, as Isaac Israel makes his appearance for the first time in Oakland, and what is more, as a legitimate star. Heretofore, playgoers have known Barney Bernard, the famous Hebrew impersonator as one of a trio of comedy stars, Kolb and Dill being with the trio. But now he comes, or rather is to go, as a lone star at the head of his own company.

Great credit must be given Manager Bishop, of Bishop's Company of players for allowing Oakland playgoers to see Barney Bernard, star. In his ascendancy. In fact, he is one often used, the man who gives up all his money is reduced from comparative riches to poverty and then, in the last act gets his wealth back again. Special attention has been paid to scenery and scenic effects. The Israel home, in act 2, where the wedding anniversary is being celebrated, is perhaps, the richest stage setting ever attempted at Ye Liberty.

There are eighteen people in the cast, not including the minor characters. Frank Bacon, portraying Bertram Jacobson, an old friend of Israel's early days, proves true to life, while Landers Stevens, as Sherman Hyde, a broker and occasionally a plunger, gives Bernard a channel into which to pour some of his wit. Eleanor Gordon gives a good portrayal of Israel's wife, faithful to him in riches and in poverty. Mina Gleason is Mrs. Caroline Carrathers, an authority on dogs and husband, is amusing and enables Barney Bernard to vent more of his wit in commenting upon the trials and tribulations of that lady.

Manager Graham has a great drawing card in Bernard and no doubt the Liberty will be crowded all week.

# MRS. TOM THUMB TELLS STORY OF HER LIFE IN HER TINY DOLL-LIKE HOUSE

BOSTON, May 2.—To spend a day with Mrs. Tom Thumb at her country home, to see her using her tiny furniture like the trappings of a doll's house, to dine with her and have her carry on a sprightly conversation while seated at table in her little high chair, to have her tell the story of her eventful life as the most famous little person ever exhibited to the public of two hemispheres—all this is a delightful experience.

Mrs. Thumb has been before the public nearly forty-seven years. She has met many famous persons—kings, queens, great men and women in the professions and millions of ordinary every-day folk—and at 64 she is as bright and animated as a girl and possessed of all the intellectual force that has made her celebrated among the little people of the show world.

Recently she observed the forty-second anniversary of her marriage to Gen. Tom Thumb by sending out pieces of her wedding cake carefully preserved all those years in her home at Middleboro, Mass.

The home of Mrs. Thumb or Countess Magni as she is now known—for Tom Thumb has been dead twenty-two years and she has been twenty years the wife of Count Magni a tiny Italian—is on the old homestead of the Warrens in Warranton North Middleboro, a homestead that comes down from a Mayflower emigrant, who was the founder of Mrs. Thumb's family on the mother's side.

As the visitor to North Middleboro having an appointment to call on Mrs. Thumb alighted from the country trolley car at a little waiting station by a wind-swept crossroads a tiny man came forward to meet him, extending a friendly hand. It was the Count Magni consort to Mrs. Tom Thumb.

The countess proved especially agreeable and spoke of her career freely. She said: "I was born in the old red house next to this October 31, 1841. I did not go to school until I was nine years old. Then I went to the schoolhouse down by the road, that stood where the railroad waiting room is now. I remember it well."

"At sixteen I was persuaded to go on the road by Col. J. H. Wood the Chicago showman. My stage name was Lavinia Warren although my family name is Bump, I was christened Lavinia Mercy Bump."

"My marriage to Gen. Thumb has been made the subject of a good many fairy stories," said the countess with a droll little smile. "Show business you know—this with a knowing nod. It demands romance. I am afraid Mr. Barnum wrote about our courtship what he thought the public would like to read. But that is something I don't want to talk about now."

"My wedding was a grand affair quite exceeding in magnificence some of the great weddings of recent days. There was a very distinguished company present including members of the army and navy, and of Congress and noted persons in public life generally. All traffic was stopped on Broadway from Grace Church to the Metropolitan Hotel during the wedding."

After the marriage the little people were seen at Mr. Barnum's museum, where they drew fabulous sums to the coffers of the great showman. Then Mr. and Mrs. Thumb went alone on a tour for some weeks their route being in the West.

Resuming her narrative the countess described her first tour of Europe with Gen. Thumb, beginning in 1864.

"We received many famous persons," she said. "I remember very well our reception of the Prince of Wales, the present King and the Princess at Marlborough house."

"The Duke of Cambridge was with them. We received them as we received other people, they walking past the prince greeted the general as a fellow Mason. I was impressed with the cordial greeting of the prince who was a fine sympathetic young man."

"In Paris we received the Emperor, Napoleon III and the Empress Eugenie at the Tuilleries. Of course we could not converse with them as they spoke no English and we no French, but they were very cordial, shaking hands and smiling. The Emperor impressed me as being a very gentlemanly person. The Empress was beautiful and seemed pleased to meet me."

On their return to America the little people made a tour of the West and South in 1867.

## WHY THIS WOMAN WANTS A DIVORCE

DES MOINES, Io., May 2.—Because he was crazy.

Because he was broke.

Because he used an alias.

Because of all this Laura Bitting has filed a petition for a divorce against a man whose real name she does not know.

So she calls him William Killin, alias C. H. Wilson.

Miss or Mrs. Bitting formerly resided at Adel, Io., so the petition goes. She resided there in the winsomeness of her youth. Then the imaginative Killin, alias Wilson, popped up on the scene. He was Killin!

He whispered the old story in Laura's ear and told her that he was from the city of Des Moines, down at the forks of the river. Down where everybody carries a bar of soap and a washbowl in order to keep clean from hour to hour. He told her all this and also mentioned that he was the proprietor of a great butcher shop which brought him in codles of money each and every day. He introduced himself as Wilson and stuck to it very well.

Well, Laura believed the yarn about the meat market and longed to marry the man with the large supply of meat and money.

They were married. And they stayed married just two days. Thus the petition goes. It has been just a year ago. Married just two days. He then assumed another name and lost his mind. She found that he circulated under the name of William Killin. Then she found that he didn't have any more meat market than a rabbit and besides this he was foolish. She resolved to leave him.

Later on Miss or Mrs. Bitting found out that his true name is Killin and that instead of having any money at all he is an absolute pauper and that instead of being a man of common sense he is demented. Because of all these grounds of fraud she wishes to be divorced from him.

She shows to the court that he failed to notify her he was insane and she married him on the representation that he had some money, sufficient at least to support her in the style to which she was accustomed.

## CONCERNING WOMEN.

Did you know you can tell a good deal about character from window curtains? A woman who has been running around hunting a housemaid says she knew as soon as she saw the front of a house whether the person within had advertised for a place would answer her purpose or not. There were houses with dirty curtains of cheap lace looped back with soiled and tangled strings, houses with filthy window panes and no curtains at all. Houses where the curtains made a feeble effort to keep up with tawdry style and houses where the glass was clear and the curtains poor but spotless. And in all cases the inmates bore out this first impression. "The woman I finally got," she said, "came from a house where the shades were green and clean and pulled to exactly even distances across the spotless window panes. And I knew before I went in how orderly the room would be and how clean and neat a person she would be herself."

A woman should insist upon being mistress of her own kitchen but unless she possesses self-control, patience and tact she is really just as unfit to manage her servants as a child. It is a very true saying that man or woman who has not learned to control self is not fit to control others. If a woman cannot go into her kitchen without losing her patience or losing her temper she would do better to stay out of it. Fault must be found, but with servants, as with children, it should be in a quiet, dignified way and a proper time should be chosen for it.

A woman who does not know any better than to take a time when a woman is particularly busy, or has some special piece of work she is trying to get through such as washing, ironing or getting dinner will never be likely to have good service. If she scolds or nags at once lowers herself to the level of her servants and loses the respect which every mistress of a house should strive to deserve from those about her.

Extravagance is certainly a feminine weakness and it is difficult for women in high positions who are rarely worried with money troubles, to know where to draw the line. Apropos of this, a good story is told of the late Queen Isabella of Spain, whose bills nearly drove her treasurer mad with anxiety. Her majesty purchased extensively at the Parisian shops, but her income which was not large for her station, would not stand the strain when the bills came in. At last the treasurer hit upon a brilliant idea. He got two bushels of silver pieces and piled the coins up on a huge table in the queen's ante-room. When Isabella saw the enormous heap of money she called out in astonishment: "What on earth is all this money for?" "It is the money to pay your majesty's 'glover,'" replied the treasurer. The queen said nothing, but "thought the more" and afterward made it a rule to pay ready money for all goods she purchased.

He repeated his recent declarations to the effect that the Mormons seek to dominate politics in Utah, Idaho and Wyoming and that they have also great power in Colorado.

Theodore F. Shrader, of Utah, spoke along similar lines.

Resolutions were adopted which provide:

"That a committee of citizens of New York City and neighborhood be appointed to correspond and co-operate with the loyal Americans of Utah, and that it is the unanimous sense of this meeting, in view of the evidence brought out before the Senate Committee, Senator Reed Smoot shall be ex-

cluded from the Senate of the United States."

## "MUST BE HAPPY TO BE BEAUTIFUL"

ST. LOUIS, May 2.—Before a large and enthusiastic audience of women, Mme. Yale has delivered a lecture on "The science of beauty, importance of physical culture and skin preservation for the prolongation of life and retention of youth."

Posing as a model of beauty, Mme. Yale gave many interesting demonstrations of care for the body. Mme. Yale says she is 45 years old, but so beautifully rounded is her figure, so elastic her muscles, and so charming her hair, features and complexion that easily could she pass for 24 or '25 years.

In speaking of self preservation for the woman beautiful, Mme. Yale dwelt on the importance of the daily bath, salt water as a tonic for the skin and warm water and salt as a preserved and beautifier for the eyes. She advocated the cultivation of deep breathing and suspending with the crest if possible. Much stress she laid on bodily poise and correct walking.

One special hint given in the lecture was the inevitable result in beauty from habits of cheerfulness and a happy disposition.

"The face speaks from the heart and the eyes reflect the depths of the soul."

No woman can be really beautiful without the daily bath with a lavish use of good soap. The massage and other requisites may then come in, but the bath is the foundation and keynote to beauty and prolongation of youth.

The fountain of youth may be found in every household if one has the energy to use it."

### THE WAY OF A MAN.

At seven Willie wanted  
To be a pirate bold—  
To sail the rugged Spanish main  
And gather chests of gold—  
Make his captives walk the plank  
From his low rakish craft—  
To meet their pleas for mercy with  
A deep and guttural laugh.

At sixteen Bill was different—  
No more he craved to be  
A pirate bold and bloody  
To sail th' boundless sea.  
But looked with eyes 'twere covetous  
On the Presidential chair—  
Decided to be satisfied  
If Fate would land him there.

At twenty still was changing—  
Was Mary's "gentleman friend"—  
What with lunch and opera  
His purse was on the bend.  
He'd lost his aspirations—  
A single one did save—  
Th' height of his ambition was  
To be her humble slave.  
Alas, slack at thirty,  
Ah, most sad to relate,  
He shares a flat with Mary  
And kids six or eight.  
At 8 1/2 jumps a car each day—  
Gets fifteen dollars per  
He's won his last ambition, he's  
A faithful slave to her.

## SEWING CAUSE OF DRUNKARDS

When I want to be a saint  
That hereditary taint  
Says "Do a little sinning"—and I do.

NEW YORK, May 2.—If your tendencies are gracelessly bibulous, don't take refuge behind the memory of an erring sire. Any fond idea you may be cherishing of his responsibility for your peccadilloes is a fallacy. Your father's affection for the flowing bowl has nothing to do with the case. It is your mother's love of embroidery.

Mrs. F. Weed, who addressed the Frances E. Willard Union of the W.C.U. on the "Psychology of Dissipation," says the son of a mother who

studied embroidery is as certain to go to liquor as to school, the girl either takes to liquor or hysteria.

Mrs. Weed told the temperance union that it was impossible to inherit a taste for liquor. What you do inherit is the wornout nerve. The speaker urges that professors of psychology in colleges be asked to teach this scientific fact."

## PROF. RUGH IS EXONERATED BY DIRECTORS.

Board of Education Finds Charges  
Against Teacher  
Not Proven.

Professor Rugh of the Franklin School against Principal Rugh of the Franklin

was exonerated by the Committee on School, submit the following:

"We find the punishment of the boy complained of was inflicted about ten weeks ago.

"We believe the principal exercised care in the administration of the punishment. No evidence was given that would go to show that the principal was either excited or angry at the time the punishment was inflicted. On the contrary, evidence was produced to show that the punishment was inflicted with care and deliberation.

"Yet notwithstanding that the punishment was inflicted with care and deliberation, your committee believe and scold find that the instrument used to admin-

ister the punishment, to wit, rubber tubing, is not suitable for this purpose. Indeed, Mr. Rugh has so expressed his belief to the committee. We believe, too, that the punishment administered was more severe than it should have been, and more severe than was intended by the principal.

"We find no evidence as charged that Mr. Rugh is persecuting the children of the complaining parties. On the contrary, your committee believe that Mr. Rugh is doing all in his power for the welfare of the children.

"We find that the transfer of the daughter of the complaining witness from the Franklin to the Lincoln School for misconduct in the class room should be confirmed by the board, and we so recommend.

"Respectfully submitted,  
C. D. ROGERS,  
W. J. WILCOX,  
A. H. PRATT,  
Committee on Rules and Regulations."

The report met the approval of the board, and a resolution was adopted without any discussion upon the matter and the incident was treated as closed.

## PREDICTS NO INCREASE IN SCHOOL CENSUS.

Matter a Disappointment to Board  
of Education—Offer Bonus to  
Industrial Teachers.

A number of important matters were considered by the Board of Education at its meeting last night, not the least important of which is the fact that the indications are that Oakland's census roll will not be increased by this year's enumeration. The taking of the census is not complete, but Superintendent McClymonds stated that he had to announce that from a comparison with certain districts where the work is finished with that of last year, the numbers are just about the same. At the same time, he said, the schools are more crowded. Director Ingler thought it rather peculiar and asked Superintendent McClymonds how he explained it.

In answer the explanation was made that a change had been made in the method of taking the census and we have not yet got the effect of inflated rolls. The change that went into effect a year ago made Oakland's number of children fall away below what it was the year previously.

This year it is thought it will about hold its own and by next year will probably see the normal gain.

It was explained that in former years a census taker simply asked the number of children in a house between the ages of five and seventeen and in this way was given children some of whom were too young and others too old. Last year the parents had to specify the age of each child and only those between these two ages were taken. This year the counting was more strict still by giving the parents blanks in which to write the name and age of each child, which then has to be sworn to.

It is believed that these precautions have had the effect of squeezing the water from the census rolls and making them exact so far as families taken are concerned. There always are families, however, that are missed and which in former years it was contended offset the extra children on the rolls.

Superintendent McClymonds stated, however, that the present block maps of the city used for this purpose were inadequate, owing to the taking up of large tracts of out-lying districts and he asked that the finance committee be instructed to ascertain the cost of maps so as to prepare for the more thorough taking of the census next year. His recommendation was adopted.

In regard to the purchase of certain lands for school sites and the work of opening bids on the Franklin School the following resolution was introduced and adopted:

"OAKLAND, May 1, 1905.—To the Honorable, the Board of Education of the City of Oakland, Gentlemen: Your Committee on Industrial Education beg leave to state that a committee meeting was held with the Superintendent of Schools, and McCay, director of industrial education, to consider matters pertaining to this line of education for the next year.

"We believe that industrial education, to reach its highest efficiency, must be pursued the same as any other subject in the schools, as far as possible, and that the teacher who is capable of instructing her pupils in this line of industrial education will receive the best results with the least loss of time. Bearing this in mind we would recommend that the following proposition be referred to the Finance Committee for consideration and report:

"That \$60 per annum extra salary be paid to each teacher who receives the recommendation of the Director of Industrial Education that she is qualified to instruct her class in the course of manual training in shop work.

"We would recommend that the Superintendent of Schools and the Director of Industrial Education be directed to submit to the Board of Education the name of one qualified teacher and at the same time a qualified teacher of the shop work of industrial education. Should the aforesaid parties be able to submit such recommendation it is the recommendation of your Committee on Industrial Education that such a teacher be elected a regular teacher in the Department, and your Committee will be prepared to submit a recommendation to the Classification Committee in reference to the assignment of this teacher.

"Your Committee believe that Industrial Education can be extended to classes of Primary and Grammar schools below the seventh grade at an expense of about \$200 per annum per school. Your Committee would therefore recommend that Industrial education below the seventh grade be extended to the Bay and Clawson schools during the next year.

"Respectfully, J. E. WOOD,  
A. H. PRATT,  
E. E. CRANDALL,  
Committee on Industrial Education."

Improvements on the grounds of the Grant School. The concrete work, including concrete foundations for fence, concrete sidewalks on Telegraph street, granite work, is already completed. The fence will be completed within a few days. The grounds are in admirable condition, with the exception of gutters, and these are in very bad condition. The cost of the improvements already completed is \$140.42. The cost of the fence, as per contract will be \$725. The cost of the four foot gutter around the grounds will be \$445, making a total cost of improvements completed and proposed, of \$2,610.42.

Although this is \$10 over the estimate, we understand that funds are available for it, and would recommend the improvement.

"We would recommend that the Secretary notify the architect to fit out a list of hardware needed for the various buildings in their charge, to the end that the contractor for hardware may have true to furnish the same.

"That the completed plans and specifications of Stone & Smith for the foundations of the Grant School building be approved and an advertisement inserted in the Oakland Enquirer for bids for the construction of the foundations as per plans and specifications. Bids to be received Monday, May 8, 1905.

"That the amended plans and specifications of Bissell & Favill for the Prescott School building be approved. That when the Board adjourns it adjourn to meet Monday, May 8th, 1905, at 7:30 p.m.

"Respectfully submitted,

JOHN D. ISAACS,  
C. D. ROGERS,  
F. M. HATHAWAY."

The Classification Committee recommended favorably the fixing of a class day for primary and grammar grade pupils and by a vote of the Board Superintendent McClymonds was instructed to fix the date.

The report of the Committee on Furniture and Supplies in regard to what is needed for the schools was adopted.

The following report was submitted by the committee on Industrial Education and the same was unanimously adopted.

"OAKLAND, May 1, 1905.—To the Honorable, the Board of Education of the City of Oakland, Gentlemen:

"Your Committee on Industrial Education beg leave to state that a committee meeting was held with the Superintendent of Schools, and McCay, director of industrial education, to consider matters pertaining to this line of education for the next year.

ZENITH NOT  
TO MOVE PLANT

The published statement that the Zenith Mill and Lumber Company would move its plant from the site at 1051 East Twelfth street, is denied by P. W. Page, a representative of the firm, who declares that there never was any intention of moving.

"The property upon which the mill is located was bought by the Western Pacific railroad," said Mr. Page today, "but it is not on the road's right of way and it will be a long while before the rail road will need to come along the road will be a benefit to us."

The company furnishes estimates on all kinds of lumber, sashes and doors and general mill work.

LIVE STOCK MEN TO MEET.

DENVER, May 2.—Livestock circles are manifesting great interest in the first annual convention of the American Stock Growers' Association to be held in Denver commencing May 9. The executive committee meets here on May 8. President Roosevelt is to be in Denver on that date and is expected to meet many of the stockmen. The movement represented by the Association is receiving strong support, not alone from stockmen, however, but from other bodies organized for the benefit of their particular industry.

Railways have made a one-tare rate from the country west of Chicago and St. Louis to Denver for this convention and a large attendance is expected.

Murdo Mackenzie of Trinidad, Colo., is practically the only man mentioned for the Presidency of the Association, which is now vacant owing to the death of Conrad Schaefer.

An automobile crumber has come to supersede the crumb-brush and tray, as the motor car has superseded the horse and carriage. It is a Lilliputian carpet sweeper and does its work prettily and thoroughly.

BASEBALL

BOXING

## JIMMY DUFFY AT THE BALL.

"I've a taste the color of an Easter egg," said Duffy, as he mopped a perspiring brow with a paper napkin.

"What'll you have, Jimmy?" asked Daniel Webster.

"I don't know what to drink. Whew," replied Duffy. "My thirst was easy Saturday night, but it's to the bad today."

"Try carbolic acid," suggested Sam Hammer, and he sidestepped just in time to a left to the solar plexus.

"You ought to have seen Duffy Saturday night," said Dan Denby. "Ned Greenway would have felt like a spolt deuce in a new deck if he'd seen Duffy at the Laundry Workers' ball."

"I was there with bells, all right," said Duffy, with a reminiscent grin. "And the way some of those Silly Monds could pivot! Give me the bromo seltzer, a gin fizz, and a sarsaparilla, and I'll tell you about it. I met an airy fairy on the pile, and bought her couple of the long boys that are sharp and cool, down at the Dutchman's."

"What's that got to do with the ball?" demanded Jimmy, angrily.

"Just wanted to show that sometimes your dope's to the bad," replied Hammer.

"All set," said Daniel Webster, and further hostilities were averted.

## Mitchell Has IT HANDED TO 'IM.

## TOM JENKINS HAS NEW HOLD.

The return of Charley Mitchell to the fighting game as the manager of Jabez White recalls many incidents of his adventurous career.

Mitchell was for a season the star attraction in the Thatchier, Primrose & West minstrel show. He went on after the first part and did Ajax, defying the lightning, the Greek Faun, pitching justice, the Roman gladiator, finding the Sons, Atlas sustaining the earth, and as an apotheosis, in full sporting costume, as "Charley Mitchell, the Champion of the World," all under a flare of appropriate lights.

Among the minstrels of minor importance was a clog dancer named Branscombe, a Lancashire boy who always wanted to put the gloves on with Charley. But Charley treated him contemptuously, with the serene contempt that a star displays toward a small actor until one day in Buffalo, he told the ambitious youth to stick to his milk bottle, that he had no time to fool with him. The insult hurt.

The succeeding week, at Detroit, on the opening night, Branscombe boldly walked on the stage where Mitchell was posing as the prizefighter and smashed him in the face. There was a shout all over the house.

Mitchell was surprised, even dumfounded, at the clog dancer put it to him half a dozen times before he collected himself. Auditors, minstrel men and stage hands strove to separate the combatants.

Finally they got the men apart. Branscombe yelling: "What, ye Cockney stiff! Tell me to stick to my milk bottle! Why, I'll fight them for a crown w' one and beind me back!"

Mitchell had both eyes blackened and the Lancashire lad's injuries consisted of a bloody nose. However, they thought it well to convey Branscombe across to Canada, where the next morning he lost his life in an accident on the Great Western Railway.

## QUERY COLUMN.

THE TRIBUNE is receiving numerous queries relative to sports matters from readers who depend upon the columns of this page to settle their disputes. It has heretofore been the policy of this paper to answer such queries through the mails, but the number of questions of general interest has so increased that it is deemed expedient to establish a query column. Only questions of general interest that cannot be answered by search in the ordinary books of information will be answered.—Sporting Editor.

THE FANS are still discussing the problem: "HOW CAN A BALL TEAM MAKE SIX HITS IN ONE INNING WITHOUT MAKING A RUN?" Apparently they are no nearer the solution than when they began. Following are a bunch of answers forwarded to THE TRIBUNE:

Sporting Editor TRIBUNE: A makes a hit to left and reaches first base, B makes a hit to left and reaches first base, A to second. C makes a hit to short stop, reaches first base, B to second, put out between second and third. D makes a hit to shortstop, reaches first. E to second. D to third. C home plate. F makes a hit to third reaches first. E to second. D to third. C put out at home plate. By these plays, you will see that there are six hits in one inning and no runs scored. I am not much of a baseball fan, but this is easy. JUMBO.

Sporting Editor TRIBUNE: My answer to your contest is as follows: First man up singles and is thrown out at second trying to steal; second man up singles and is thrown out at second trying to steal; third man up singles; fourth man up singles and forces the man on first to second; fifth man up singles, forces the men on base around one base each that leaves five hits, two outs and three men on base; the sixth man singles and the man on first gets caught at second base before the man on third gets home, which leaves six hits without a run. GEORGE SIXTON.

Sporting Editor TRIBUNE: I beg to submit the following answer to the six-hits puzzle: The first man up hits to right field and goes to first. The second man up hits to short center and forces the man at second. The third man up makes a safe hit to left and goes to first, which makes three safe hits, one out and man on first and second. The fourth man up hits to center, and other two men each advancing one base. The fifth man hits to center, and forces man out at second, leaving the bases full, five hits and two men out. The sixth man makes hit to left and the man on third is thrown out at the plate, which accounts for the six hits and no runs. K. C. B.

Sporting Editor TRIBUNE: A makes a base hit, out stealing second; B makes a base hit, out stealing second; C makes a base hit, lands on first; D makes a base hit, lands on first, C going to second; E makes a base hit, which being fielded so well, allows C only third. D on second; F makes a base hit, which lands him on first and would bring C home, but C falls down and before which can recover himself is put out at home. GEORGE E. BIGGE.

Sporting Editor TRIBUNE: Can you tell me the present address of Danny Needham?

Answer—The former lightweight champion of the world is engaged in the saloon business in Chicago; or was when last heard of here. Needham left Oakland about five years ago, after having made a tour of Alaska. He went to Chicago and opened a saloon and was doing a thriving business when last heard from.

Sporting Editor TRIBUNE: Who is the most reliable bookmaker with whom to place bets at the track? R. E. H.

Answer—This department does not answer such questions. It is assumed that all the credited bookmakers are reliable or they would not be allowed at the track by the directors of the California Jockey Club.

Sporting Editor TRIBUNE: Please give me the breeding of the race horse, Dr. Leggo, and oblige. AN OLD SUBSCRIBER.

Answer—Sra. Pouvaire D. dam, Savana.

ED J.  
SMITH  
of  
The  
Tribune  
who  
will  
referee  
the  
fight  
between  
Britt  
and  
White

Edward J. Smith, a member of the sporting department of THE TRIBUNE, boxing instructor of the Reliance Club, and prominently identified with athletic affairs, was, by a process of elimination, chosen last evening as referee of the international fight between Jimmy Britt of San Francisco and Jabez White of England, which is to be held in Woodward's Pavilion next Friday evening under the auspices of the Hayes Valley Athletic Club.

And not a better choice could have been made. Ed Smith has a reputation for honesty and integrity in sporting matters that is known from shore to shore and has never been questioned. Participating as he has in affairs athletic for years, and as the referee of more than one hundredastic engagements, Ed Smith is fully capable to act as the Judge in this, the first international light-weight contest ever held in America.

The selection of the referee was made in the rooms of Morris Levy, manager of the Hayes Valley Athletic Club, in the Adams House, San Francisco. Willie Britt, brother and manager of the American lightweight and Charlie Mitchell, England's former heavyweight champion and now manager of Jabez White, were present on behalf of the little fighters.

And here it might be mentioned that when Mitchell and White landed in New York they conversed with the various sporting authorities there on the subject of a referee, the most important question in the international contest. The Eastern authorities agreed and so instructed Mitchell to the effect that not a better man than Ed Smith could be secured on the Pacific Coast to judge the contest.

And so Mitchell and White came out here with the purpose in view of asking on their part that he be chosen for the third man in the ring.

When the parties interested met in Morris Levy's apartments last evening for the all-important discussion as to the referee it was suggested by Mitchell that he and Britt should write the names of their choices on slips of paper and exchange these slips. Now it came to pass that both Britt and Mitchell penned the name of Eddie Smith.

Of course others were mentioned—Graney, Harry Corbett, Jack Welch and Phil Ward, for instance. But there was an objection of some kind to all names but that of the Oakland man.

Mitchell stated that he had spoken to Graney, and the stylish horse-shoer said that the illness of his wife would prevent him from acting.

Hanford refused on the ground that it has been years since he dabbled thus, and objections were made right down the line.

There were Eastern referees on Mitchell's list, but under the circumstances surrounding pugilistic affairs on this coast it was deemed not best for one to butt into the game here.

And after this little talkfest both Mitchell and W. Britt came back to the choice of both—Ed Smith. And as he was acceptable to the managers and to the club, he was chosen to judge the clash between representatives of the United States and Great Britain within the ropes.

Ed Smith refereed his first fight back in the '90s before the San Francisco Athletic Club. He was the third man in the ring when Al Ned and Red Ferns met, and, in fact, has refereed in several score of contests held about the bay. His ability, honor and justness is unquestioned, and his decision on the merits of Britt and White as shown between the ropes can never be questioned.

The choice of Ed Smith as referee is the best and most popular one that could be made.

## SOME BASEBALL FIGURES

Figures furnished by the official scorers in the Pacific Coast League do not place Oakland in such a very bad light when compared to the rest of the teams.

For instance, there is Buck Franks, probably the best shortstop in the league. Buck leads all in his class, although he has more errors to his credit. However, this shows that he has been working, and those who witnessed the recent series know that Buck took all kinds of chances that might properly be overlooked.

Then there is that man Kelley, seven or eight runs better than the second baseman in the league. He is as fast as greatest lightning and is as good as two Schlaflys, even if he does not head the percentage column.

Kelley goes after more chances than is necessary, and if he makes an error once in awhile, he more than even up on put outs, for the figures show that he has put out more men thus far than any other man in his position, and that what counts.

Here are the figures; look over them yourself:

Various phases of the life of the Oriental student in America will be touched upon by writers chosen from American colleges and by other Chinese who have interests in America.

Y. Chang, '07, is the Chinese editor, and F. F. Sec., '05, is the English editor. Others on the staff are S. Y. Li, M. Jee, '07, S. T. Kong, '05, and S. Young, '04.

The aim of the book is to reflect the abilities of Oriental students in this country. The Chinese part consists of a directory of students in

**NATIVE SONS' SOCIAL DANCE**

**BERKELEY.** May 2.—A social dance will be given next Saturday evening by Berkeley Parlor No. 210, Native Sons of the Golden West, in their new hall in the Francis Shattuck building. The affair will be strictly invitational and will be in charge of the following committee: Charles Edgar, chairman; Edgar Thomas, George Drum, Harry Young and W. Cady.

**BECOMING A MOTHER**

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of all the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy relieves confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

Sold by all druggists at \$1.00 per bottle. Book containing valuable information free.

**MOTHER'S FRIEND.**

**NOVEL SIGNALS TO BE SENT FROM UNIVERSITY**

**Secretary of Navy Authorizes Project Planned at State Institution in Honor of Railroad Men.**

**BERKELEY.** May 2.—Arrangements are being made at the Students' Observatory for receiving a special set of time signals from Washington on May 3 at midnight, Eastern time. These special signals will be sent out by request of the American Railway Association, with the approval of the secretary of the navy, in honor of the International Railway Congress, which is to meet in Washington on the following day. Similar signals from the United States Naval Observatory on New Year's evening reached the Students' Observatory in 0.02 seconds; Lick Observatory, 0.05; City of Mexico, 0.1; Manila, 0.2; Liverpool, 1.3; Sydney, Australia, 0.25; Wellington, 2.4; Rio de Janeiro, 2.6; Argentina, 7.7.

From the rapidity and accuracy with which these time signals are transmitted over existing connecting land lines as results of long experience in transmitting daily noon signals, it seems very probable, if the telegraph companies will take special care in their transmission and not interpose any secondary clocks or human relays, that they

may serve to give fairly accurate determination of longitude at any telegraph station.

In connection Professor Leuschner has received a letter from Superintendent Lamm of the Western Union company in which he promised that these signals will be sent out over the lines of the Berkeley for the University of California, and any message or acknowledgement from the university will be transmitted to Washington.

Mr. O'Brien, manager of the Pacific States Telephone Company, has tendered use of the telephone wires for transmitting signals to the Students' Observatory. These signals will be received at the Lick Observatory, Chinese Observatory in Oakland, Mare Island and other California observatories.

As Dr. May, of Crawford and Dr. Gilliland will make arrangements to receive messages from Monday to Thursday evenings so that the exact instant of receipt of signals may be ascertained. The results will be immediately wired back to Washington from all observatories considered later by the International Railway Congress in connection with matters pertaining to railway service.

**Golden Bear Society to Erect Fine Building on the University Campus.**

**BERKELEY.** May 2.—The largest realty sale of last week was made by M. P. W. Abes, consisting of the Whitworth property at the corner of Piedmont street and Alston way, which was purchased by San Francisco persons for \$20,000. It is stated that a handsome business block will be erected on this property. Among other recent sales are the following:

Warren, Cheney & Co.—Fifteen lots among which are two to Professor Fryer on Piedmont avenue, two on Hilliges avenue, Mrs. E. J. Edwards of San Francisco, and four on Tyler street to Frank Sheek.

E. L. Coryell & Co.—Twenty-three lots during the month of April, among which are two to the University.

Philip Maki—Sold 50 feet on Addison street, near Shattuck avenue of business property, and also lots in the Hopkins tract to Mrs. Catherine Bates of Alston way, a widow.

Frank M. May—Reports contract for the sale of lot and erection of house on the south side of Cedar street east of Alston way to Mrs. Anna Earl of San Francisco.

Mortimer & Co.—Have purchased the balance of the Humphrey tract and will add to the same.

Jones & Baker—Report contract for house on Grove street for Mr. Merritt value \$30,000. R. W. Baker is architect and builder.

Also on Stuart street near Telegraph avenue for \$4000 to a San Francisco merchant.

Francis Ferrier—Reports sale of a physician from Southern California.

BERKELEY, May 2.—Excavating has begun for the foundation of the new Senior Hall. The hall, which is to be the headquarters of Seniors in coming years, will be located near the Faculty clubroom. It is being erected by the Golden Bear Society, and will be a fine building, and notable addition to the University of California.

Shortly after noon yesterday the bride of Town Marshal Charles Schilling was in serious danger from a runaway. She had driven into town with her husband, who got out at the corner of B and Castro streets. She drove up Castro street to make a visit to her family on the Mount Eden road. Just then it began to rain and Mrs. Schilling erected her umbrella. It frightened the horse, which dashed forward at a gallop before the woman could gain control of it. The animal had struck the buggy against a telegraph pole and was pulling up the street. Mrs. Schilling threw away her umbrella and pulled on the reins with both hands, stopping the beast before it had gone another block. The only damage sustained was the loss of a little paint from the hub that hit the pole.

**PERSONALS FROM FRUITVALE**

**FRUITVALE.** May 2.—Mr. and Mrs. C. Kramer of Brandon street are rejoicing over the arrival of a baby girl, who came yesterday.

The case of W. H. Ellard and George Stackman, who accuse each other of breaking the peace, is to be tried before Justice Gandy next Saturday. They live on High street and have been quarreling for years. An injunction has been applied for in the Superior Court to preserve the peace, and the case will be heard on Thursday.

A horse belonging to Dr. Crosby of this place almost ran away yesterday afternoon. He said affairs are getting worse here; that while under the old service street cars completed the Alameda loop in fifty minutes, now it took two hours, and the tracks are in a dangerous condition even when no greater speed than that is maintained.

On motion of Trustee Forderer, President Gorham was appointed a committee of one to interview the Oakland Traction Company's officials and learn what the city may expect, and inform them what the city intends to do if the service is not bettered soon.

Trustee Boehmer introduced a resolution of intention to lay a sewer on Pearl street.

The usual claims and salary lists were ordered paid and the regular committee reports heard.

**NO POISON.**

**ALAMEDA.** May 2.—It is now thought that the death of the man whose body was washed ashore on the south side of Bay Farm Island was caused by drowning. Late last night Dr. William Lum announced that after a careful examination of the stomach he could find no trace of poison. That, and the description of the manner in which the man met death by Captain Johann Anderson of the vessel from which the man fell, leave drowning as the only theory.

The remains were identified last evening as those of Johann Lindstrom, a
